FIRST MONDAY OF THE MONTH

4-5PM

The Reading Rabbits book group meet the 1<sup>st</sup> Monday of each month 4 – 5pm.

The group is for all readers aged 6-8 years. As this age group differ in their reading ability, we choose a theme, (often chosen by the children) and then we select a range of fiction or non-fiction texts based on this theme and the children choose from that selection. This enables all children to read at their level and interest. Books range from picture books and first readers to shorter chapter books, and some are now reading longer chapter books.

The children take their book and a book review home and then when they return, they tell the group about the book they have read. We do another book activity and always finish with a fun craft related to the theme.

We want the group to be fun! Although we ask the children to read and review books, if they find it too difficult or just uninteresting it is fine for them to put that on the review sheet or for an adult to read it with/to them.

We ask for good behaviour from the children which doesn't preclude having fun although we must bear in mind that we are in a library and others here are reading and studying.
